ALDO // Shoes

AndroidsinBoots (Still + Motion) // Photography

PSST! BEAUTY TIPS FROM MMB ARTISTRY

For brides preparing for an engagement shoot, I recommend going for regular facials and maintaining a good skincare regime. Also, it's important not to try any new products or treatment the week before the shoot, in case of any allergic reaction to the products or treatment! For longevity of hair and makeup, a good makeup artist will use long-staying foundation products and makeup setting spray to set and seal the makeup. On your pre-wedding shoot day, simply bring some pressed powder to touch up your T-zone, and some lip gloss to add shine!
